**Year 7 Catch-up funding Expenditure**

Academic Year 2017-18

## Introduction

The literacy and numeracy catch-up premium gives schools additional funding to support year 7 pupils who did not achieve the expected standard in reading or maths at the end of key stage 2 (KS2).

## Purpose of the catch-up funding

Schools should identify pupils who need extra support from the year 7 catch-up premium, so they can decide the best way to use the funding. They should only select programmes and approaches that you know are effective.

For example, they could use the funding to pay for:

- individual tuition
- intensive small-group tuition
- external services and materials
- academically focused summer schools that help students catch up over a short period of time through intensive expert tuition

## Amount of catch up funding we are expecting to receive in 2017/18: £18,000

Catch up funding spent on:-	Amount	Brief details	Intended impact	Monitoring
Small group interventions- Maths	£6000	Small group maths interventions led by specialist maths teachers. These sessions will work on areas of weakness identified from SATs papers.	-Diminishing the difference in attainment of pupils who did not achieve expected standard in SATs and those that did.  -Increased progress and attainment of pupils not achieving expected standard in SATs.	-Termly data harvests  -GL data  -Tracking of individual pupil data

Small group interventions- English	£6000	Small group English interventions led by specialist teachers. These sessions will work on areas of weakness identified from SATs papers.	-Diminishing the difference in attainment of pupils who did not achieve expected standard in SATs and those that did.  -Increased progress and attainment of pupils not achieving expected standard in SATs.	-Termly data harvests  -End of year GL data  -Tracking of individual pupil data
